Shortlisted for the William Hill Sports Book of the Year award.

On May 11 1985, fifty-six people died in a devastating fire at Bradford City's old Valley Parade ground. It was truly horrific, a startling story – and wholly avoidable – but it had only the briefest of inquiries, and it seemed its lessons were not learned.

Twelve-year-old Martin Fletcher was at Valley Parade that day, celebrating Bradford's promotion to the second flight, with his dad, brother, uncle and grandfather. Martin was the only one of them to survive the fire – the biggest loss suffered by a single family in any British football disaster.

In later years, Martin devoted himself to extensively investigating how the disaster was caused, its culture of institutional neglect and the government's general indifference towards football fans' safety at the time. This book tells the gripping, extraordinary in-depth story of a boy's unthinkable loss following a spring afternoon at a football match, of how fifty-six people could die at a game, and of the truths he unearthed as an adult. This is the story – thirty years on – of the disaster football has never properly acknowledged.

Loved this book, and learned a lot

By T. Cope

Not from Bradford, or even England, but I loved this book. Fascinating and awful story, really engrossing,

Good Read

By julans

Shocking story of fire at a soccer stadium causing panic, resulting in overly crowded exit area that caused many people their lives. Although the story retains your interest, the writer (a child survivor at the time) isn't quite as polished as you might prefer), hence 4 stars. It's a sad story of loss and the effect it had on the survivors as well as the families of the victims.

By Heather Jackson

Awesome summary. The first half is his personal experience of the fire and the second is a more grown-up and in depth analysis of the probable true cause of the fire and illustrates the big fat hurry the inquiry was in to close it.
