Clients may be noncompliant regarding policies agreed upon at the outset of therapeutic services, not adhere to an individualized treatment plan, be inappropriately aggressive, and file unjustified ethics and licensing complaints and/or lawsuits. Unfortunately, many mental health practitioners are not prepared for such actions and suffer great distress that affects their professional and personal lives. Not bad. I'm surprised that this is the newest edition

By Serious Reader

Not bad. I'm surprised that this is the newest edition, and that there are so few options on this topic. I bought it as a nurse manager for inpatient psych and as a future psych NP. It's more useful for the latter. You'll still have to look up the state specifics, but it is helpful.0 of 0 people found the following review helpful.
