Ok people, this is not an actual linkin park book. look on the description where it says "arranged for guitar tablature". that means it is a guitar book with the tabs for all the songs. it doesn't talk about lp at all- it just has the tabs for guitar in it.

pretty good

By dayneee

i like linkni park so i decided to buy this tab book. the only reason i didn't give it 5 stars is because it doesn't give you direct tablature it shows a key which helps bt still is annoying at times. its a great book has the right notes and in a way you can look up the tabs on a website called songster and get the rhythm.
