About the Author

Chloe Faith Wordsworth, the founder of the Resonance Repatterning system for self-healing, is a Phi Beta Kappa graduate of UCLA. She has a Masters Degree in English Literature, and is a Five Element acupuncturist. She has trained thousands of people in the Resonance Repatterning system, and is President of the Resonance Repatterning Institute. She has written eleven training manuals used by students and practitioners alike. The Resonance Repatterning system evolved as the result of Chloe's clinical practice when she began to ask why one modality or energy healing system would work well for one person, and then not at all for another person with a similar symptom.

QUANTUM CHANGE MADE EASY: BREAKTHROUGHS IN PERSONAL TRANSFORMATION, SELF-HEALING AND ACHIEVING THE BEST OF WHO YOU ARE (RESONANCE REPATTERN PDF

Quantum Change Made Easy, and the nine universal principles it describes, puts the secrets to how life really works right in the reader's hands. The book introduces a dynamic system, known as Resonance Repatterning(TM), for unlocking full potential. Quantum Change Made Easy offers both theory and practical applications. Quantum Change Made Easy shows readers how to change what doesn't work in their lives into a breakthrough opportunity for personal transformation, self-healing and achieving the best. Readers will learn about and experience universal principles as part of a proven system for personal growth. They will learn such principles as: every person is an energy being, living in a sea of vibrating frequencies; all change begins at the quantum level, where frequencies and resonance rule; everything has a frequency including back pain and stress at work; the frequencies you resonate with determine the life you live; when you change the frequencies you resonate with, you change your experience of life. Quantum Change Made Easy includes an introduction to resonance and Resonance Kinesiology, to unconscious patterns and their Repatternings, and to a worldwide range of energy modalities including sound, light and color, breath, movement, energetic contacts and fragrance, all illustrated with case histories and made accessible through exercises at the end of each chapter.

Interesting, but not made easy

By Kathy B

I did like the concepts discussed, but I was disappointed that after reading the book, the reader would not be able to actually "practice" the concepts in a complete way. The author talks a lot about muscle checking, which per her words are "essential tools." Yet she says that you cannot really learn them from a book. She directs you instead to her seminars. If you are looking to read this book to get background fully intending to go to a seminar, you will likely enjoy it. I mistook the title to mean that you could learn via the book alone.

Quantum Change

By gerda venter

Interesting topic - the subject of quantum change was described very well, although I missed the actual 'personal transformation' partyou learnt about others' personal transformation, however, I think that this type of intervention may only be achieved through an in-person intervention.

Purse stuffings

By Amazon Customer

This book is seriously lacking real content to help those seeking to change or improve themselves. Poorly theorized and superficial this book makes a poor attempt at guiding people to change via 9 principles already mentioned in other reviews. After reading books on Qigong, prana, ayurveda, Donna Eden, Barbara Brennan, this book pales in comparison. I say this not out of dislike of the authors but out of concern for those truly seeking guidance. Too many other books offer more than this book as this book seems to be an amateurish attempt at helping others.
